

APACC 2022

ASIA-PACIFIC AIDS
& CO-INFECTIONS
CONFERENCE

TRANSLATING
SCIENCE INTO
CLINICAL
PRACTICE

VIRTUAL
CONFERENCE

JOIN US IN JUNE!

Over the years, enormous progress has been made in the fight against HIV and co-infections with HIV. However, international platforms for scientific interchange are not always accessible to medical professionals worldwide due to budget and travel restrictions. Also, most major conferences do not usually address local and regional issues.

The **Asia-Pacific AIDS & Co-Infections Conference (APACC)** provides a much-needed scientific platform that focuses on the developments, issues, and needs in the Asia-Pacific region. Researchers have the

opportunity to present and discuss the latest developments and are offered opportunities for interaction, networking, and building collaborations. Top experts integrate science and clinical practice through state-of-the-art lectures, clinical case discussions, round table discussions, and debates in order to reach consensus on best practices and inform how treatment guidelines are implemented.

APACC 2022 will be held as a virtual conference from 16-18 June 2022. We invite you to join us and we look forward to seeing you there!

CONFERENCE CHAIRS

**Nittaya Phanuphak
MD, PhD**
Institute of HIV Research
and Innovation, Thailand

**Reena Rajasuriar
MPharm, PhD**
University of Malaya,
Malaysia

**Joseph Tucker
MD, PhD, AM**
UNC Chapel Hill,
United States

ORGANIZING COMMITTEE

Mark Boyd, BA, BM, BS, DCH&H, MHID, MD, FRACP
University of Adelaide, Australia

Thuy Le, MD, DPHil
Duke University, USA; Oxford University Clinical Research Unit, Vietnam

Sharon Lewin, AO, FRACP, PhD, FAHMS
Peter Doherty Institute for Infection and Immunity, Australia

Patrick Li, MBBS, FHKCP, FHKAM, FRCP, FRCP
Hong Kong Sanatorium and Hospital, Hong Kong SAR, China

Nicholas Paton, MD, FRCP
National University of Singapore, Singapore

Anton Pozniak, MD, FRCP
Chelsea and Westminster Hospital, United Kingdom

Jürgen Rockstroh, MD
University of Bonn, Germany

Jonathan Schapiro, MD
National Hemophilia Center, Sheba Medical Center, Israel

Annette Sohn, MD
TREAT Asia/amFAR, Thailand

CALL FOR ABSTRACTS

APACC provides a platform for the investigators in the Asia-Pacific region to present their latest research or share their experiences in the field of HIV and co-infections with HIV!

We welcome two types of abstracts:

- **Research abstracts:** Present the latest results from your study or research and discuss the findings with an expert audience.
- **“Lessons learned” abstracts:** What worked and what did not work? Share your experiences and exchange ideas with a multidisciplinary audience.

Co-Submission with AIDS 2022 is allowed and encouraged.

ENDORSERS

Submit an abstract on your research in the following fields:

- Basic Science
- Clinical Science
- Implementation Science
- Prevention Science
- Co-Infections Including Viral Hepatitis

We accept encore abstracts as long as the research is focused on the Asia-Pacific and has new data at the time of the conference.
